3.5.6

Commit Your Code

Congratulations on completing the election audit! You got a lot done today. Before moving on, take a moment to commit your code to GitHub. Seth and Tom are going to look over your work before finalizing the election audit, so you will need to update your repository.

Save the `PyPoll.py` file to your Election_Analysis folder. To commit to GitHub, follow the steps for your operating system.

1. Launch the terminal for macOS or GitBash for Windows.

2. Navigate to the Election_Analysis folder.

3. Type `git status` and press Enter.

4. Type `git add .` and press Enter.

5. Check the status again with `git status` and then press Enter.

6. Commit the files to be added to the repository by typing `git commit -m "Adding the election audit code."` and then press Enter.

7. Type `git push` and press Enter to add the file to your repository.

8. Refresh your GitHub page to see the repository changes.
